

Grendene's first industria

I, in 1971. What

To invest in the industrial park is not just a need, it is the pattern that Grendene found to be so many o  
In order to do so, Grende

- The largest shoe company of Brazil in number of pairs produced.
- The world most technologically advanced factory of injected footwear.
- The world largest manufacturer of sandals
- Greater capacity to deliver high-quality products within a limited time compared to the competition.
